

## **23<sup>rd</sup> International Project Week** **12<sup>th</sup> – 16<sup>th</sup> July 2021**

**Lecturer:** Paul Visser

**University/Company:** Valentijn Studios

**Country:** Netherlands

---

### **The pedagogical benefits of using media in education: a masterclass on transformative thinking through film**

**Content:**

During this week we will create a learning environment using film, to showcase complex ideas in a short period of time.

We will be using storytelling through video creation by answering these essential questions:

- Why is film important, how does media content transform and create change when learning?
- How can a video impact the learning process?
- Why, when and how does a video become a learning tool?
- How do we use film to tell an impactful story?

**Methods:**

- Media presentations: exploring storytelling through study case of movie video production
- Video illustrations
- Roleplay, individual self-reflection tasks, group discussions
- Experiential activities: hands-on study case to develop research skills, collaborative working, problem-solving, technology, and organisational skills

**Competences and skills to be acquired:**

- Facilitating thinking and problem solving
- Assisting with mastery learning
- Authentic learning opportunities
- Develop research skills, collaborative working, problem-solving, technological and organisational skills

**Prerequisites:**

Curiosity for film-making.

**Language of instruction:**

English

**Recommended for:**

Interdisciplinary
